

League of Women Voters of Los Altos-Mountain View presents:

*A free public forum introducing the LWVC Energy Update Study*

## **Facing California's Energy Future: Grim or Glorious?**

CALIFORNIA'S ECONOMY depends upon reliable, affordable, environmentally sound supplies of electricity, natural gas and transportation fuels. California's way of life is increasingly threatened by its growing dependence on oil and natural gas, spiraling energy prices, potential supply shortages, and an inadequate and aging energy infrastructure. — *2005 California Intergrated Energy Policy Report*

AN EXPERT PANEL will address the questions that confront California in the field of energy; panelists will also explain what they believe our priorities should be.

### *Panelists:*

- **John Geesman**, California Energy Commissioner
- **William Ahern**, former president, California Public Utilities Commission
- **Frank Wolak**, chair, Market Surveillance Committee, CAISO (invited)
- **Dana Appling**, exec. director, CPUC Office of Ratepayer Advocates

**Saturday, December 3**

**9:30 a.m., Registration      10-noon, Forum**

**Eagle Theater, Los Altos High School**

**201 Almond Ave., Los Altos**

(cross street San Antonio Road)

For more information call Jane Turnbull (650) 559-1766

The forum is supported by the **Barbara Walker Education Fund**, a part of the LWV Education Fund
