Re: Agenda Item #6, Council Retreat Jan. 19th

Dear Mayor Eng and Members of the City Council:

The LWV at all levels, national, state and local, supports affordable housing. We urge the Council to once again adopt affordable housing as a priority in the next year. During the past year, the Council made some progress on affordable housing, but the impact fees were not completed. The problem is so overwhelming we believe affordable housing should be a priority for the next year, also. There is an urgent need to look at other ways to help solve this regional problem, which has an enormous impact on our city.

Sue Russell
Co-Chair, Housing Committee
LWV of the Los Altos-Mountain View Area
