Re: EPC Meeting March 4 – Agenda #6.1 Annual Housing Element Progress Report

The LWV commends the City of Mountain View for its efforts to provide affordable housing, especially to those with lower incomes, as these households are the most in need, and are least served by the marketplace. However, as the Progress Report shows, there is a great need to do more for moderate income households.

We are concerned with the “no net loss law” requirements. In order to make up for the under-production of housing units in some RHNA identified housing sites, we urge the City to move forward with building housing as projected in the North Bayshore Precise Plan.
