Re: Planning Commission Meeting June 4, Item #3 – Accessory Dwelling Unit (ADU)
Ordinance

The League of Women Voters commends the Planning Commission and Staff for making clarifying changes to the ADU ordinance once again. We are optimistic that the proposed ordinance will be approved by the Planning Commission, the City Council and finally by the California Housing and Community Development Department.

We urge the City to reduce fees for ADUs, thereby encouraging more homeowners to build them. We also urge the City to include an annual reporting system so that ADU rents are tracked. This would be useful data for the City, but also it should allow the City to receive RHNA credit for these units where appropriate.
