

## How can we solve our problems if we can't talk to each other?

Learn how **America in One Room** bridged the divide when discussing polarizing topics. Help us consider how we can apply its model locally, and suggest topics for future community forums.

### Lessons from America in One Room

**Thursday, October 28th, 2021 at 7:00-8:30pm (Zoom)**

Join us and enter **America in One Room**, a project of Stanford's Center for Deliberative Democracy which brought together a diverse group of 523 Americans to constructively discuss some of our country's most polarizing issues. Dr. James Fishkin and Dr. Alice Siu will share what they learned from the project and we will consider how their methods can be applied to promote more productive discussions around locally divisive topics.

Bring your ideas for topics that our community should be discussing. Registration is required and space is limited. For more information contact [events@lwvlamv.org](mailto:events@lwvlamv.org).
